

***Errata*** In the Fall 1998 issue of *Now Hear This (Volume 1, No. 3)*, we apologize for neglecting to credit Mark R. Stephenson, PhD, Research Audiologist in the Bioacoustics and Occular Vibration Section, Division of Biomedical and Behavioral Sciences at NIOSH, for using his data for Charts 2 and 4 of the Fall 1998 issue. Dr. Stephenson conducted the original research for the sound levels of the tools and second hand noise exposure measurements presented in those charts. We appreciate the opportunity to present his work.
